## **Project Report**

**Students In Project:** Talha Asif, Hassan Khanzada, Ali Abdullah

**SapID's:** 25417, 24768, 22939

**Submit To:** Sir Adil-Ur-Rehman.

**Date:** June-20-2023

## **OnFoot: Your Travel Companion:**

OnFoot is a revolutionary mobile application designed to ensure a hassle-free and enjoyable travel experience. This innovative app is specifically created to prevent you from getting lost during your journeys and provide you with a comprehensive travel guide.

With OnFoot, you can explore new places with confidence. The app allows you to save and track your whereabouts while traveling to unfamiliar destinations. Simply mark your starting point, and as you navigate through the city or countryside, OnFoot will help you stay on track and avoid getting lost. It's like having a personal guide in your pocket!

Furthermore, OnFoot encourages users to share their experiences by rating the places they visit. This feature allows you to provide valuable feedback and recommendations to fellow travelers, ensuring they make informed decisions when planning their own adventures. By contributing your ratings, you become part of a vibrant community of travelers, exchanging valuable insights and enhancing each other's travel experiences.

OnFoot is more than just a navigation app; it's a community-driven platform that connects travelers from around the world. Whether you're exploring new hiking trails, discovering hidden gems in a bustling city, or immersing yourself in cultural landmarks, OnFoot will be your reliable companion every step of the way.
